TRAVELERS

TELEMATICS

90% of vehicle accidents involve the driver as a contributing factor. *

#1 Motor vehicle accidents are the leading cause of work-related fatalities.**

The average on-the-job motor vehicle accident costs employers over **$70,000.** ***

What if there was a technology to help make your drivers aware of their driving habits and help you reduce the risk of accidents?

Driver Management & Coaching Process

Travelers can help provide the tools and resources you need to turn your telematics program into a continuous feedback loop, which can result in better driver performance.
