

Raed Kadri

Head of Ontario's Autonomous Vehicle Innovation Network (AVIN)

Ontario Centre of Innovation

Raed Kadri is Head of Ontario's Autonomous Vehicle Innovation Network (AVIN), an initiative by the Government of Ontario to ensure Ontario's leadership in the future of the automotive and mobility sector.

At the helm of AVIN, Raed drives Ontario's presence on the global stage; leading programming that supports research and development (R&D) funding, talent development, technology acceleration, business and technical supports through testing and demonstration sites. In addition to that, Raed leads province-wide coordination of activities and resources, public education, research, analysis, and thought leadership. Bringing together stakeholder groups and raising awareness around the opportunities for Ontario and for its partners, Raed is cementing Ontario's leadership in the future of the automotive and mobility sector globally.
