

Girish Modgil

**Vice President,
Automation and Artificial Intelligence Accelerator,
Enterprise Data & Analytics
Travelers**

Girish Modgil serves as the leader for Travelers' Automation and Artificial Intelligence Accelerator, which partners with all the lines of business (Personal, Business, Bond & Specialty, Claim) and whose stated mission is to deploy modular, reusable, and scalable Automation & AI solutions into production. In the Accelerator, teams of data scientists, software engineers, product owners and data engineers work on solving complex business problems using cutting-edge tools while leveraging the power of the cloud.

Girish previously held leadership roles in data science, risk modeling, finance and other areas at companies including US Xpress Ventures, G.E. Power, Lockheed Martin and Rolls Royce North America.
