

REESE CANN

**ASSISTANT VICE PRESIDENT
RISK CONTROL
TRAVELERS**

Reese Cann is a seasoned risk management professional with extensive expertise in general and product liability, currently serving as Assistant Vice President in the Risk Control division at Travelers. In this capacity, he leads strategic efforts to assess exposures and implement control measures aimed at minimizing losses related to liability risks.

He has over 20 years of frontline experience working with midsize and large businesses, primarily in manufacturing, wholesale and real estate.

He co-leads Travelers' innovation initiatives evaluating AI, wearables, IoT applications and other emerging technology to enhance safety and risk management practices.

Reese holds a Bachelor of Science in Mechanical Engineering from Clemson University, providing a strong foundation in technical problem-solving and analytical thinking. He carries several professional certifications: CSP (Certified Safety Professional), ARM (Associate in Risk Management) and ALCM (Associate in Loss Control Management), underscoring his commitment to professional excellence in risk control.

Known for fostering collaborative teams, Reese has been instrumental in developing and mentoring staff throughout his tenure at Travelers, ensuring they are equipped to identify and manage exposures effectively. His efforts have elevated Travelers' risk control standards and industry practices – especially through integrating cutting-edge technology to address emerging safety challenges. In addition to domestic teams, Reese also oversees Travelers International Risk Control staff in Canada and Europe.
